minglespace

Join us in bringing people together to create meaningful connections

Create a minglespace

What is a minglespace?

Minglespaces are designated areas at places like coffee shops, breweries, gyms, universities, and parks where people are encouraged to introduce themselves and strike up a conversation with someone they haven't met before. These engaging spaces provide an inviting environment for anyone seeking a spontaneous connection, whether they're alone, new to the city, traveling, or in a group.

With conversation prompts linked to minglespace signage, they make it easy for people to connect in fun and meaningful ways. Minglespaces are adaptable for a variety of ongoing settings, creating unique opportunities for connection wherever they're implemented.

minglespaces make it easy for people to meet and connect with new people in their community

Why create a minglespace?

Does your place provide a space for people to connect—whether they're locals, newcomers, or just passing through?

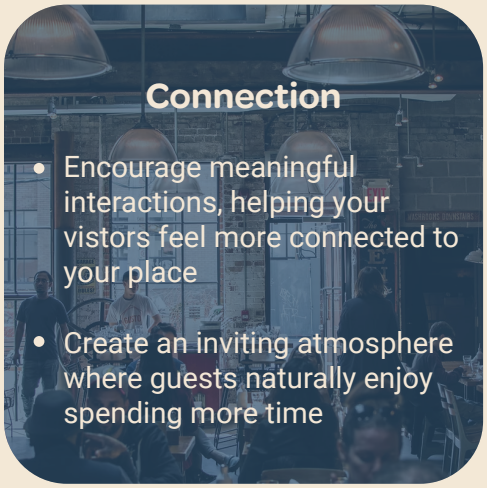
A minglespace is a simple yet impactful way to spark spontaneous interactions and strengthen social connections. By designating a table or area with minglespace signage, you create an inviting spot where guests can introduce themselves and engage with others.

This easy addition transforms a regular visit into a unique opportunity for people to meet, whether they're looking for a casual chat, networking, or the beginning of a new friendship.

Whether it's encouraging repeat visits or creating a vibrant atmosphere, a minglespace helps you turn your place into an ongoing social destination.

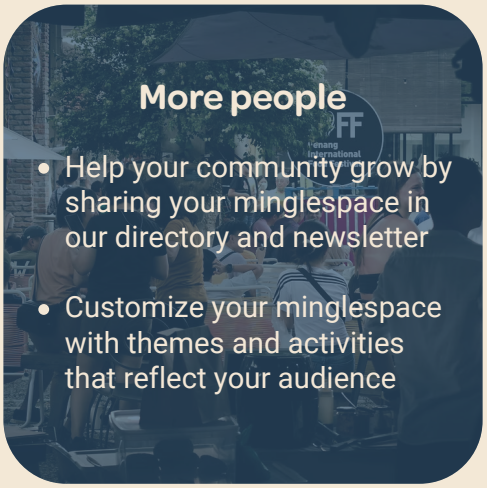
minglespace

Benefits of creating a minglespace



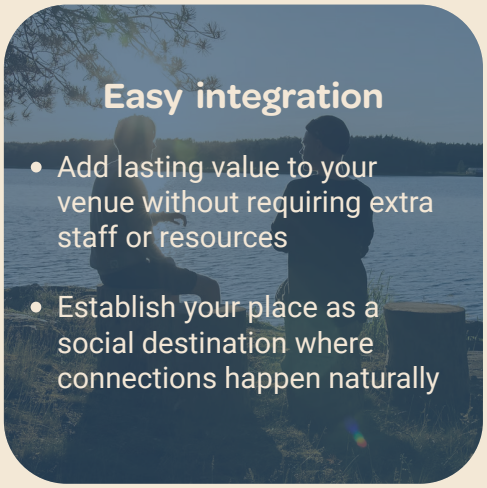
Connection

- Encourage meaningful interactions, helping your vistors feel more connected to your place
- Create an inviting atmosphere where guests naturally enjoy spending more time



More people

- Help your community grow by sharing your minglespace in our directory and newsletter
- Customize your minglespace with themes and activities that reflect your audience



Easy integration

- Add lasting value to your venue without requiring extra staff or resources
- Establish your place as a social destination where connections happen naturally

How does participation work?

Apply on our create page to get started. Complete your place's profile and select the minglespace signage you'll need. Once you receive the signs, place the main sign at a central table, bar, or designated area, ensuring it's easy to spot for guests. Your minglespace is ready.

Our vision

We believe every place should have a dedicated space where strangers can introduce themselves and interact. It's a simple yet powerful way to build connection and strengthen community. By building this new piece of social infrastructure, we can unlock the hidden potential of missed connections all around us.
